PROJECTS

"Restaurant Management System"

This restaurant management system can be used by employees in a restaurant to handle the clients, their orders and can help them easily find free tables. The restaurant menu is organized by categories (appetizers, soups, salads, entrees, sides and drinks) of menu items. Each menu item has a name, price and associated recipe. A recipe for a menu item has a chef, preparation instructions and associated ingredients.

Front End Projects - (Hulu Clone), (Drum kit), (Tin Dog)
